

The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

8. Plans of institution for next year

Proposed Curricular Activities for the academic year 2017-2018:

- As our institution is affiliated to Acharya Nagarjuna University, we have to abide by the academic calendar prescribed by Acharya Nagarjuna University.
- From 2015 onwards, the B. Ed. and M. Ed. courses have been changed into Two years and Four semesters. Accordingly, the curricular activities are planned.
- For the academic year i.e. 2017-18, we are having B.Ed. first year and second year students. So the curricular activities are planned and given here under:
 - (i) As per academic calendars and guidelines by ANU, apart from routine teaching learning process, the students have to complete project activities, seminars and assignments.
 - (ii) There are two examinations i.e. mid semester examination and semester end examination which will be conducted by the institution for the internal evaluation. In addition to the above activities, the institution likes to conduct:
 - A) Guest lectures by subject experts.
 - B) Reconstitution of subject clubs and organising the activities.
 - C) Discussions on important issues in Education.

Proposed Co-Curricular Activities for the academic year 2017-2018:

Analysis of the Feedback

The college conducted student-teacher interactions through mentor meetings at regular intervals (every week) to identify the problem of the students in teaching-learning process and general facilities. During mentor meetings oral feedback is collected from the students. The feedback collected from the students was used to improve the performance of students.

Performance appraisal of each faculty member by the students is done through teacher evaluation questionnaire at the end of each semester for each subject in B.Ed. course. The feedback given by the students was analyzed and the feedback information was given to concerned faculty members with necessary suggestions for improvement if necessary.

Feedback is collected from the parents during Parents meet which was conducted on 18-3-2017. This feedback was used to improve the general facilities in the institution.

Best Practices of the Institution

1. Mentoring System for Student Teachers

Students who have joined in teacher education courses undergo various problems of stress. This leads to poor academic achievement and sometimes dropout from the course. It is not possible to give personal guidance to students in class room. One solution therefore is a 'mentor system'. The mentor can form the bond with the students by establishing a good rapport with them. Mentoring is required for students to promote emotional stability, clarity in thinking and decision making. Mentoring can enable the student teacher to solve his problem.

Objectives of the practice

- To improve the academic performance of student teachers
- To help the students in solving their problems
- To minimize dropouts through personal counselling

The Practice

The practice is that creating an efficient mentor system. Each teacher educator who acted as a mentor is assigned 8 to 10 student teachers. They meet once in a week to discuss, clarify and to share various problems which may be personal, domestic, academic, etc. The mentor is equipped with all the necessary information about his/her allotted students in a file. The mentor involves parents or local guardians as well, whenever necessary.

Challenges and Strategies to overcome

At the beginning of the mentoring sessions the students felt shy to reveal their problems. After gaining rapport in due course students gradually came forward to express their problems. It enables the faculty to guide the students in the right direction.

Impact of the practice

Evidence of success of the practice includes more regular attendance, better discipline, increased participation in curricular and co-curricular activities, cordial relationship between teacher educators and students and better results in university examinations.

Resources required

This practice requires committed teaching faculty who have the desire to help students for their improvement.

Dr.M.Esther Suneela, Principal, A.L.College of Education, Guntur, Andhra Pradesh.

2. Tutorial System for Student Teachers

Any class room in any educational institution has students of different achievement levels, viz., high achievers, average achievers and low achievers. The low achievers do not possess even the minimum skills to cope up with the requirements of the course of study. The high achievers are often left without utilizing their full potential. This context arises the need to provide appropriate help to the development of students of different abilities. This need is addressed by the practice.

Objectives of the Practice

1. To enable the low achievement student teachers to reach minimum qualifying level.
2. To enable the high achievement student teachers to reach excellence.

The practice

The guidance and counselling cell and the faculty members identifies the low achievers and high achievers in each class. Each faculty member takes 1-2 slow learners as his or her wards under sustained supervision and care to assist them to improve their performance. Some faculty members take 1-2 high achievers to help them for further improvement. The faculty in consultation with guidance and counselling cell plans for career and future development of the student teachers.

Challenges and Strategies to overcome

The low achievers who were segregated from the rest of the class are initially felt shy to accept their inability. Gradually they accustomed to the reality. Faculty members inspired and motivated them to compete with other peers. Hence, they gradually picked up in academics and secured reasonably fair marks.

Impact of the practice

The institution secured good results in terms of pass percentage and distinctions in the university examinations of I/IV B.Ed. 2015-17 batch after this practice has been implemented. Resources required Committed and willing teacher educators for providing necessary guidance at appropriate time.

GUIDANCE AND COUNSELLING CELL

Academic excellence of the students is dependent on good teachers. A good teacher should be a friend, philosopher and guide to the students. Considering the above, academic and career guidance was provided periodically by the guidance cell at the college along with mentors. Guidance cell look after the issues relating to academics, health, professional, social and personal problems of the students. Counselling cell also looks after the issues relating to marital disharmony and spousal relationships in the case of married students. Health guidance was provided to the students by inviting the doctors to the college. At the beginning of the year, all the students were gathered and the members of the different committees introduced them and also they were advised on do's and don'ts in the college premises. Students were benefitted by these periodic individual /group guidance programmes and in turn it effected in their personal and professional fronts. During this year, specifically one student was personally given guidance. The details are given below:
